

木业机械出色品牌，专注于高质量机械设备

WOOD-BASED MACHINERY FAMOUS BRAND,
YIHE ONLY FOCUS ON HIGH QUALITY MACHINERY.

2700MM 气动涂胶机
2700MM PNEUMATIC GLUE SPREADER

胶辊直径420mm，
纯天然橡胶，厚度
20mm

Rubber roller
diameter 420mm,
nature rubber,
20mm thickness

气动调节胶辊，挤压
辊，涂胶均匀，操作
方便

Pneumatic adjust-
ing system, glue
coating uniform,
operation easily

挤压辊直径300mm，
表面镀铬钢制辊筒，
硬度高，更耐用

Squeeze roller
diameter 300mm,
chrome-faced, high
hardness, durable

整体框架由150*6
mm槽钢和厚度20
mm钢板焊接而成

Frame is welded
by 150*6mm chan-
nel steel & 20mm
thickness steel

产品参数 PRODUCT PARAMETERS

Model Number:	YHGSP8
Roller quantity:	4pcs
Working speed:	adjustable
Diameter of glue coating roller:	420mm WITH THREADING
Length of glue coating roller:	2700mm
Diameter of glue squeeze roller:	300mm
Length of glue squeeze roller:	2700mm
Power of motor:	7.5KW
Max. Veneer thickness:	30mm
Max. Veneer width:	2700mm
Overall size:	4400*1600*1900mm
Machine's weight:	5000KGS

产品结构细节 MACHINE STRUCTURE DETAILS

1. Pneumatic Adjusting System

The glue coating thickness and glue coating volume is controlled by the compression air according to board thickness and requirement. Operation easily and save manual adjusting time.

2. Micro-control Adjustment Wheel

The machine is designed micro-control adjustment wheel. The glue coating thickness and glue coating volume is adjusted in precision. This can guarantee uniform glue coating and to control glue volume big or small in precision.

3. Wear-resistant Natural Rubber

The rubber roller is covered with 20mm thickness wear-resistant natural rubber. It is high hardness, it is very durable. Surface has screw thread pattern, this can increase rubber roller friction.

4. Chrome-faced Steel Squeeze Roller

The squeeze roller is made by special steel and surface is with chrome. That can increase the squeeze roller hardness and protect squeeze roller corrosion from the glue, to increase its using life. The surface also can be covered the stainless steel according to client's requirement.

5. Control Panel

The layout of the control panel is reasonable, operation easily. And it has emergency stop button. These can guarantee operation more efficiency and safely.

公司简介 COMPANY PROFILE

Shandong Linyi Jianye Shunda Machinery Co., Ltd.(formerly Linyi Jianye Machinery Factory)founded in 1991, is a set of production, sales, service, reach and development as one of the multi-company and multi-category professional manufacturers of wood machinery,

It is a modern management services company, under the construction industry Shunda Machinery Manufacturer of Zhu Bao Branch, Jianye Rubber Products Factory and Jinze import and Export Co., Ltd.

After more than 20 years of continuous development and growth, under the sincere cultivation of the vast number of customers and the joint efforts of all the employees of the company, Now we have the brand of "Yihe" and six categories of series. Glue spreader machine series, drying machine series, hot press machine series, sawing machine series, in the patchwork (scraper) series and rubber products series. Become more than 40 kinds of products of large and medium-sized wood machinery professional manufacturers.

The company always adheres to the service aim of the brand, high efficiency, honesty and pragmatism, and sincerely expects to cooperate, develop and progress with domestic and foreign businessmen. With sophisticated equipment, advanced processing technology and perfect testing methods, the company continuously improves its technical level and strives to provide satisfactory professional and personalized wood-based panel machinery manufacturing and service for the vast majority of wood processing enterprises at home and abroad. Domestic and foreign businessmen are welcome to visit.
