产品参数
PRODUCT PARAMETERS

Model Number:	YHHDP4
Wood diameter:	Φ30-Φ550mm
Wood length:	900-1300mm
Blade length:	1500mm
Thickness of veneer peeler:	0.8-4.0mm
Linear speed of host machine:	35-80m/min, 60-120m/min
Double roller diameter:	Φ180mm
Single roller diameter:	Φ150mm
Double roller motor power:	7.5kw*2pcs
Single roller motor power:	5.5kw*2pcs
Cutting knife motor power:	2.2kw(SERVO MOTOR)
Rubber roller motor power:	2.2kw
Feeding motor power:	7.5kw(SERVO MOTOR)
Veneer conveyor motor power:	1.5kw
Total power:	39.4kw
Overall size:	4500*1900*1450mm
Machine's weight:	6200kg

产品实景拍摄 MACHINE LIVE PHOTO

产品结构细节 MACHINE STRUCTURE DETAILS

1. Servo Feeding Motor

The feeding motor is 11kw servo motor. It can guarantee stable machine running, stable rotatory peeling speed and accurate veneer thickness. So the machine can produce high quality veneer.

2. TAIWAN Feeding Lead Screw and Screw Nut

The machine uses mining equipment's feeding lead screw, which is made by TAIWAN technology. The feeding lead screw is made by special steel, the screw nut is made by copper. It has very high feeding accuracy and guarantee accurate veneer thickness. The standard feeding screw diameter is 70mm. Diameter can be 100mm according to client's requirement.

3. Siemens Motor

YIHE complete set of plywood equipment supporting Siemens motor or Shandong Huali motor, the power voltage and frequency can customized according to different countries and regions.

4. Electroplating Peeling Roller

All peeling rollers of YIHE veneer peeling machine are quenched and electroplating process, the rigidity is better, we can choose the right roller patterns to meet your different wood species according to different kinds of veneer and wood.

5. France Schneider Electrical Parts of Panel Box

All YIHE veneer peeling machines use advanced PLC control system and France Schneider brand electrical parts. Operate easily and long service life.

公司简介 COMPANY PROFILE

Shandong Linyi Jianye Shunda Machinery Co., Ltd.(formerly Linyi Jianye Machinery Factory)founded in 1991, is a set of production, sales, service, reach and development as one of the multi-company and multi-category professional manufacturers of wood machinery, It is a modern management services company, under the construction industry Shunda Machinery Manufactur of Zhu Bao Branch, Jianye Rubber Products

Factory and Jinze import and Export Co., Ltd.

After more than 20 years of continuous development and growth, under the sincere cultivation of the vast number of customers and the joint efforts of all the employees of the company, Now we have the brand of "Yihe" and six categories of series. Glue spreader machine series, drying machine series, hot press machine series, sawing machine series, in the patchwork (scraper) series and rubber products series. Become more than 40 kinds of products of large and medium-sized wood machinery professional manufacturers.

The company always adheres to the service aim of the brand, high efficiency, honesty and pragmatism, and sincerely expects to cooperate, develop and progress with domestic and foreign businessmen. With sophisticated equipment, advanced processing technology and perfect testing methods, the company continuously improves its technical level and strives to provide satisfactory professional and personalized wood-based panel machinery manufacturing and service for the vast majority of wood processing enterprises at home and abroad. Domestic and foreign businessmen are welcome to visit.
